## Summary

Results-driven Software Developer with hands-on experience building scalable, user-centric web applications using modern technologies including React, Next.js, Node.js, and Tailwind CSS. Skilled in authentication systems, REST APIs, and database integration with a strong focus on performance, clean architecture, and real-world problem solving.

## Education

**B.Sc. in Computer Science and Engineering** – Metropolitan University (2023–2026)  
**HSC (Science)** – Dhaka City College    GPA: 5.00

## Core Skills

**Frontend:** React, Next.js, Tailwind CSS, Bootstrap    **Backend:** Node.js, Firebase, MongoDB, REST APIs  
**Tools:** Git, GitHub, Figma, Vercel, Netlify    **Languages:** JavaScript (ES6+), C, C++, Java, Python

## Projects

### GameHub (*React, Tailwind, Firebase*)

Live — Repository

- Engineered a responsive game library platform enabling users to browse, explore, and manage game collections
- Designed a dynamic UI with efficient state management to enhance user interaction and performance
- Integrated Firebase for secure, scalable backend operations and real-time data handling

### Wanderlust (*Next.js, Express, MongoDB*)

- Developed a full-stack travel booking system with authentication and role-based access control (RBAC)
- Built scalable REST APIs to manage bookings, users, and inventory efficiently
- Improved user experience with optimized UI design and seamless navigation

### FinEase (*React, Node.js, MongoDB*)

- Built a real-time finance management application to track income, expenses, and savings
- Implemented secure authentication using JWT and Firebase for user data protection
- Visualized financial data using interactive charts to support better decision-making

## Achievements

- Built and deployed multiple full-stack applications independently
- Maintained consistent GitHub activity with real-world projects
- Demonstrated strong problem-solving through end-to-end development
- Continuously learning and applying modern development practices

## Certifications

- HTML5 & CSS3 – Pirple (2023)
- Learn HTML – Udemy (2023)
- Safe Internet – UNICEF Bangladesh (2024)
- Complete Web Development – Programming Hero (2025)
